

## Terms&Condition

Component Name: Terms&Condition

Project Name: ValueTickets

Developer: Namrata Singh

Designation: FullStack Developer Intern

Employee ID: FS202501025

Date: 04-02-2025

### 1. Template Structure:

```
<template>
```

```
  <div class="terms-container">
```

```
    <h2 class="terms-heading">Terms & Conditions</h2>
```

```
    <div class="terms-box">
```

```
      <p>
```

Please confirm the name(s) of the passenger(s), travel dates and flight timings as selected by you. Name changes are not permitted once the booking is completed and after tickets are issued. Your tickets are non-refundable and non-transferable. Date and routing changes are subject to airline penalty rules and will incur change fees, fare differences and associated service fees. The total fare you agreed to pay includes taxes and fees but not the baggage fees. All passengers must check in at the airport at least 3 hours before the scheduled departure of your flights, especially for international flights, or else you will be marked as a No-Show. No-show tickets have no value.

```
    </p>
```

```
  </div>
```

```
  <div class="form-group outside-checkbox">
```

```
    <label>
```

```
      <input v-model="termsAccepted" type="checkbox" required />
```

By clicking 'Book Now', I agree to the

```
      <strong class="highlighted-text">Terms & Conditions</strong>,⪯>
```

```
      <strong class="highlighted-text">privacy policy</strong>
```

```
    </label>
```

```
  </div>
```

```
</div>
```

</template>

## Explanation

### Terms & Conditions Section:

- A container (terms-container) that holds the entire content, styled with padding and margins for proper spacing.
- The heading (terms-heading) is displayed at the top, aligned to the left of the screen.
- The main body of terms is presented inside a terms-box, which holds a descriptive paragraph.

### Checkbox Section:

- Below the terms, a checkbox is provided where the user can accept the terms by checking it. The text includes a reference to the "Terms & Conditions" and "privacy policy" with an emphasis on key parts using the highlighted-text class.
- The checkbox input is bound to the termsAccepted data model using v-model.

## 2. Script:

```
<script>
export default {
  data() {
    return {
      termsAccepted: false
    };
  },
  methods: {
    submitForm() {
      if (this.termsAccepted) {
        alert("Terms accepted.");
      } else {
        alert("Please accept the terms and conditions.");
      }
    }
  }
};
</script>
```

**Explanation:**

- Defines the component name as “Terms&Condition” for better debugging and modularity.

**3. Styling Code:**

<style scoped>

/\* Align heading to the left of the screen and reduce font size \*/

.terms-heading {

text-align: left;

margin-left: 0;

color: #333;

margin-bottom: 20px;

font-size: 1.25rem;

}

.terms-container {

padding: 20px;

max-width: 800px;

margin: 0 auto;

}

.terms-box {

background-color: #fff;

border: 1px solid #ddd;

border-radius: 8px;

padding: 20px;

margin-bottom: 20px;

box-shadow: 0 4px 6px rgba(0, 0, 0, 0.1);

}

.terms-box p {

color: #333;

font-size: 14px;

line-height: 1.6;

```
}  
.form-group.outside-checkbox {  
  margin-top: 10px;  
}
```

```
.form-group label {  
  display: flex;  
  align-items: center;  
  font-size: 14px;  
}
```

```
.form-group input {  
  margin-right: 10px;  
}
```

```
.highlighted-text {  
  font-weight: bold;  
  text-decoration: underline;  
}
```

```
@media (max-width: 768px) {  
  .terms-container {  
    padding: 10px;  
    max-width: 100%;  
  }  
  .terms-box {  
    padding: 15px;  
    margin-bottom: 15px;  
  }  
  .terms-box p {  
    font-size: 13px;  
  }
```

```
}  
  
.terms-heading {  
  font-size: 1.1rem;  
  margin-bottom: 15px;  
}  
  
.form-group label {  
  font-size: 12px;  
}  
}  
  
@media (max-width: 480px) {  
  .terms-container {  
    padding: 8px;  
  }  
  
  .terms-box {  
    padding: 10px;  
    margin-bottom: 10px;  
  }  
  
  .terms-box p {  
    font-size: 12px;  
  }  
  
  .terms-heading {  
    font-size: 1rem;  
  }  
  
  .form-group label {  
    font-size: 11px;  
  }  
}  
</style>
```

## **Explanation**

### **Container Styling:**

- The terms-container class provides padding and max-width to ensure the form fits nicely in a centered block on the page.

### **Heading Styling:**

- The heading (terms-heading) is aligned to the left, given some margin at the bottom, and reduced in font size for a cleaner look.

### **Terms Box Styling:**

- The terms-box div has a white background, a subtle border, and a shadow effect to make it stand out. It also features padding for spacing and rounded corners.

### **Text Styling:**

- The paragraph inside the terms-box is styled for readability with an appropriate font size, line height, and color.

### **Form Group (Checkbox) Styling:**

- The checkbox and label are styled using flexbox to align the checkbox and text in a horizontal line.
- highlighted-text adds bold font and an underline to the "Terms & Conditions" and "privacy policy" for emphasis.
